PROFILE

An enthusiastic and highly motivated back-end web developer with a mastery of Laravel, PHP, HTML, CSS, and MySQL. Demonstrated success in architecting and implementing robust, scalable solutions for web applications. Proven ability to lead development teams, optimize processes, and deliver high-quality products on schedule. Adept at staying abreast of industry trends and incorporating emerging technologies into projects. I am a forward-thinking individual who is driven, ambitious and passionate. As a Computer Science and Engineering graduate, I would like to use my educational and professional experience to build my career further.

Core Skills	Core Strengths
- **Leadership:** Provide clear direction to the team in accordance with organisational goals. - **IT Skills:** Laravel Framework, PHP, HTML and CSS, Database Management (MySQL), Version Control (Git), MS Word, MS PowerPoint. - **Goal settings:** Proficient in task prioritization, resource allocation, and meeting project deadlines. - **Delegation:** Ability to delegate tasks efficiently, leveraging team strengths to optimize productivity. - **Resource management:** Experience in resource management, including task allocation and optimization of team resources.	- **Accuracy**: Meticulous attention to detail, ensuring accuracy in code implementation and database management. - **Communicating:** Effective communication of ideas and challenges. Ability to document code and processes clearly. - **Versatility**: Willingly accept and implement changes and new ideas to solve complex problems. - **Dedication:** Committed to achieving project goals and exceeding expectations. - **Punctuality**: Execute and attend meeting targets on time. - **Honesty:** Being open to share ideas.

WORK EXPERIENCE

Web Development Projects

1. **News Website (HTML, CSS, PHP, MySQL)**
   - Spearheaded the development of a dynamic news website, showcasing expertise in HTML, CSS, PHP, and MySQL.
   - Implemented responsive design for optimal user experience across devices.
   - Successfully integrated MySQL to manage and dynamically retrieve news articles, ensuring real-time content updates.
   - Collaborated with cross-functional teams to achieve a seamless integration of front-end and back-end components.

2. **Restaurant Website (Laravel)**
   - Led the creation of a feature-rich restaurant website using the Laravel framework.
   - Implemented robust user authentication and authorization systems for secure access.
   - Integrated interactive menu features, order processing, and reservation functionalities.
   - Utilized Laravel's Eloquent ORM for efficient database management.

3. **E-commerce Website (Laravel)**
   - Developed a dynamic e-commerce platform leveraging Laravel's powerful features.
   - Implemented secure payment gateways, order tracking, and inventory management.
   - Ensured a seamless user experience through intuitive product catalog design and responsive layout.

4. **Hospital Management Website (Laravel)**
   - Engineered a comprehensive hospital management system using Laravel.
   - Implemented user-friendly interfaces for patient records, appointment scheduling, and medical staff management.
   - Integrated role-based access control to ensure data security and privacy.

Key achievements:

- **Proficiency:** Demonstrated expertise in full-stack development, combining front-end technologies (HTML, CSS) with back-end frameworks (PHP, Laravel).

- **Database Integration:** Successfully integrated and managed databases (MySQL) to ensure efficient data storage and retrieval.

- **User Authentication:** Implemented robust user authentication and authorization systems for secure web applications.

- **Collaboration:** Worked collaboratively in cross-functional teams to ensure the seamless integration of features and functionality.

- **Problem-Solving:** Applied strong problem-solving skills to address challenges and optimize website performance.

- **Version Control:** Implemented version control using Git for streamlined collaboration and code management.

ACADEMIC QUALIFICATIONS

Dhaka International University, Bsc (Hons) in Computer Science and Engineering (2017–2021), CGPA(3.02 out of 4.00).

FM International College, Higher Secondary Certificate in Science (2017), GPA(4.25 out of 5.00).

Mirpur Bangla High School, Secondary School Certificate in Science (2015), GPA (4.17 out of 5.00).

Mirpur Bangla High School, Junior School Certificate (2012), GPA (4.00 out of 5.00).

Mirpur Bangla High School, Primary School Certificate (2009), Grade (Second division).

INTERESTS

I enjoy reading books, journals and articles. I also enjoy meeting new people, listen to their stories, spending time with family and friends.
